What are Private Services?

Private Services for Home and Community Services are available for the same service types that are supplied under the Commonwealth Home Support Program (CHSP) or the Support at Home (SAH) Program. The hours of care or the provision of services provided depends on what you need to maintain your independence at home and your financial status.

Can I use Private Services with my Support at Home Package or Commonwealth Home Support Service?

Yes. There are some services that we can provide only through private services such as dog walking or social gardening. These services are not limited as they do not impact on your Support at Home Package or CHSP services.

How do I access services?

Please call your Local Home Care office on (03) 6185 0700. Our team can explain the support and services available through private funding and they can also assist you with information on CHSP, Support at Home and services through Veterans Home Care.

Feel right at home.
